LED Lights

Chips

Drivers

Mounted PCBs

Circuit Boards

Diodes

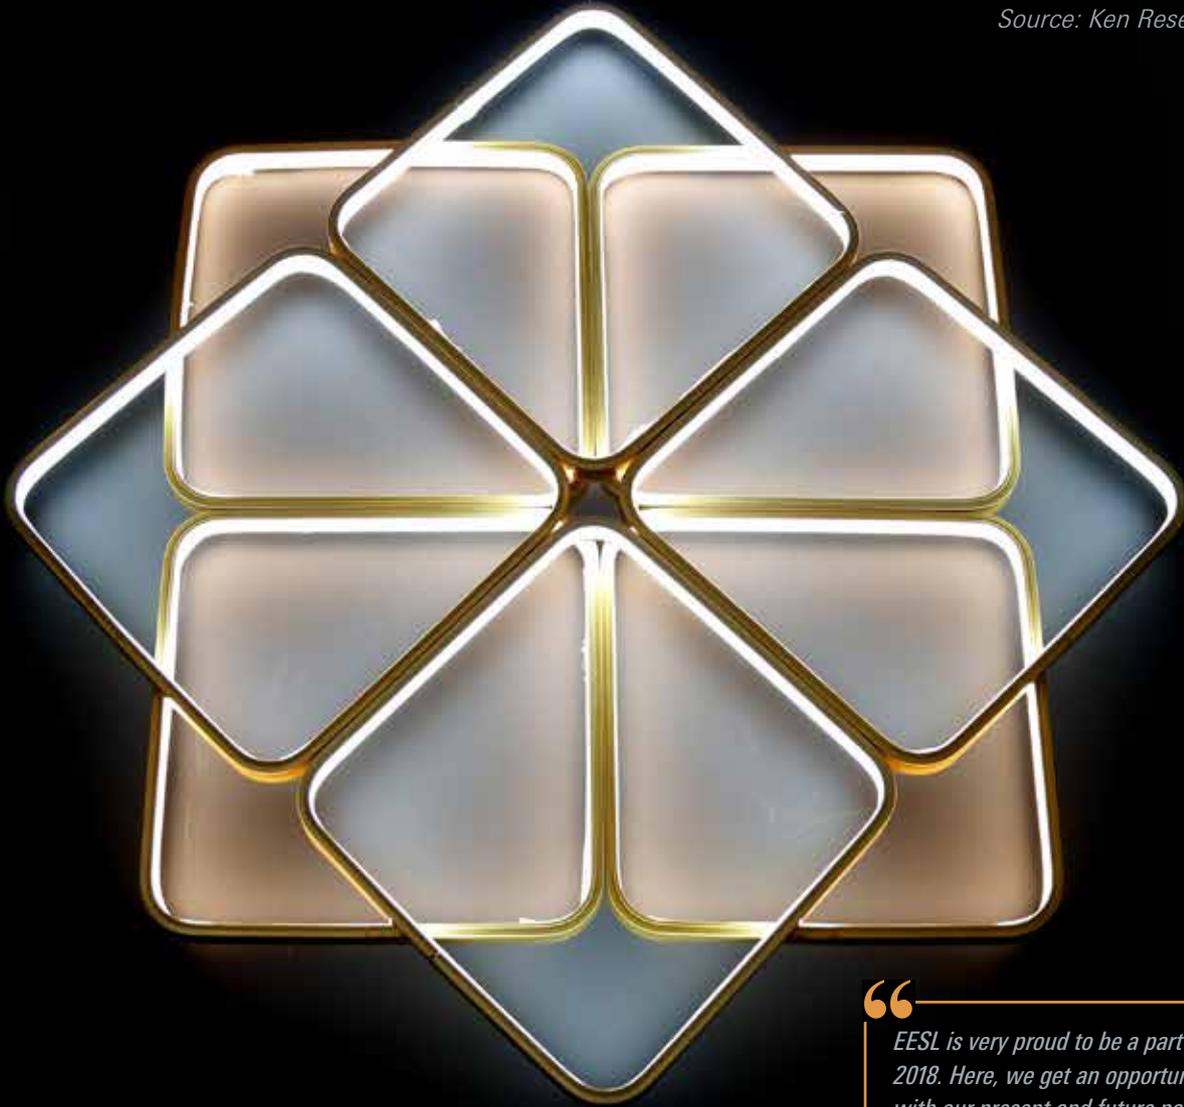

More than a bright surface!

LED Expo in India has become a source of inspiration with innovative products, technologies and trends for the world's LED industry. With future-oriented solutions, LED Expo is all set to enter its 21st edition, scheduled to be held from 14 – 16 November 2019 at India Expo Centre & Mart, Greater Noida, Delhi–NCR.

The LED market is forecast to multiply 10 times in the next five years. The global LED market was valued at US\$33.10 billion in 2017, and is projected to reach US\$96.71 billion by 2024, registering a CAGR of 15.9% between the two periods.

LED Expo as a forum is becoming a stimulating force in India to phase out non-conventional lighting including CFL and CCFL lighting, and leap forward into next generation technology for intelligent LED lighting.

“

EESL is very proud to be a part of LED Expo 2018. Here, we get an opportunity to interact with our present and future partners. This is a great platform for all businesses who are interested in lighting opportunities within and outside the country, to come together and work. By working together we expect to learn more and deliver better services to India as well as the international markets

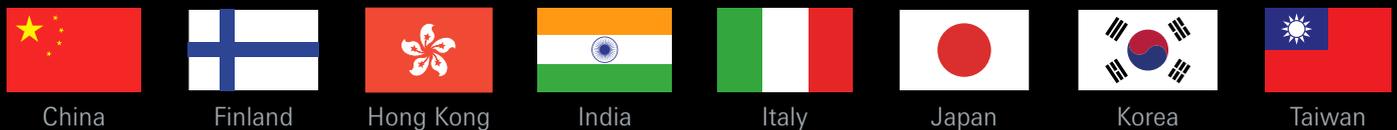

Mr Venkatesh Divedi, COO, EESL

“

We were looking for upward integration and the right kind of platform where we could network with the people, so we decided to take part in LED Expo. We have received fantastic response and the show is making us really happy and satisfied. We've generated lot of positive leads, making it a win-win situation for us. We are thankful to Messe Frankfurt India for the professionalism showed. We are definitely going to be a part of the future editions.

Mr Mickey Shah, Director, Power Palazzo Power Ltd.

- Officials from power, new and renewable energy, environment, urban development and railway ministries

“

This is my third visit to LED Expo. We are able to find the right kind of suppliers and solutions that we are looking for. Since there are changes in the LED industry, coming here we can witness enhanced products which increases our knowledge and introduces us to new product ranges.

Karamjeet Solanki, Purchase Manager Hotel Crown Plaza, Rohini

”

“

This has been our seventh year at the show and with a change in the venue, it was a pleasant surprise for us to see such a good footfall at our stall. For this edition, we have launched many new technologies like the fire escape lighting solution which will help ensure safe evacuations. We also have wireless drivers which can fit into streetlights encouraging the smart lighting revolution by the government. LED Expo has worked wonderfully for us and we would like to thank the organisers for the same.

Mr Gautam Malkani, MD, Fulham (India) Pvt Ltd
