India's only
exhibition
covering the
entire value
chain of the
LED industry

Shine bright: put your business in the spotlight with genuine buyers

LED Expo is proud to present its 26th edition in New Delhi which will be bigger, grander, and more business effective than ever! Since its debut in 2009, the lighting industry has witnessed LED Expo's continuous growth, with the fair establishing a position as the perfect marketplace to meet new contacts, renew contracts, network with industry leaders, and get up to speed with the latest industry trends.

Our success can be measured both by the overwhelming response to each edition as well as the consistent year-on-year growth in scale.

Our growth journey

Big names choose LED expo Delhi

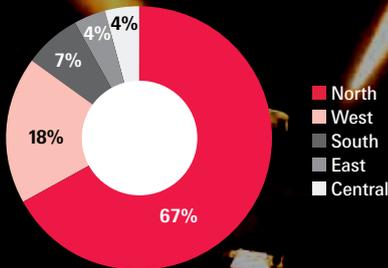

and many more ...

Visitor statistics from 2021

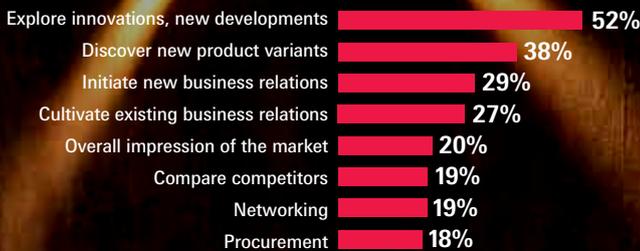

Visitor breakdown by region – India

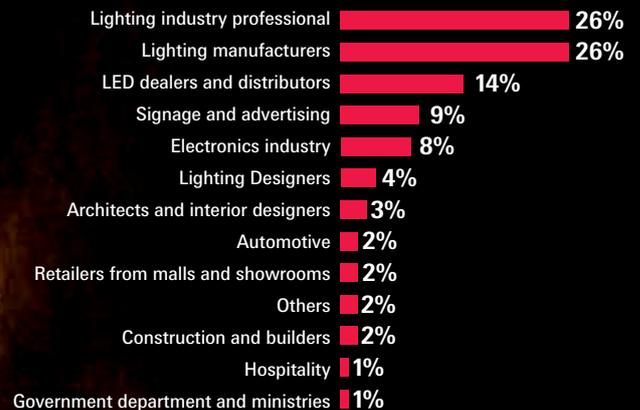

It has been a wonderful experience being at LED Expo. The industry is growing significantly and it is further evolving with more automation as well as 'LEDfication'. We have our own Make in India, Design in India and Expand in India initiative under which we have built the device development platform, application platform and we are also building analytics platform to provide meaningful insights for sustainable growth in India. The response from the visitors and the ecosystem across the LED segment, services segment and total solution providers was amazing.

Mr Praveen Arora, Tata Communications's Vice President – IoT India

Visitor breakdown by business objectives

Visitors' nature of business

Exhibitor satisfaction

For a raw material supplier, the quality of crowd has been good and people are very much excited to come here. There are also several start-ups and emerging companies on the show floor, which is a really good sign for India and the industry. LED Expo has been successful in attracting businesses and the crowd at its venue once again.

Mr Mohit Sharma, Sr Vice President – Lighting & Appliance Business, Eveready
